

Online Images of UCC and EFS Filings

To: Interested Parties
From: John Gale, Secretary of State
RE: Online Images of UCC and EFS Filings

As part of our effort to make Secretary of State services more convenient for citizens and businesses throughout Nebraska, I am pleased to announce that images of Uniform Commercial Code (UCC) and Effective Finance Statement (EFS) filings have been made available online as of January 1, 2002. For a number of years, the basic information (name, address, document number) in our database from liens filed with this office has been available online. The new service will allow users access to the scanned image of the actual documents filed with the office, so all information, including collateral description, will be available.

You may access UCC images through either a document number search or a secured party name search. Once you have identified the filing you seek, there will be a direct link to the image by simply clicking on the document number. UCC images are provided at a cost of \$0.50 per page.

In order to access UCC data online including the scanned images, you will need to subscribe the [Nebrask@Online](#), the state managed gateway to Nebraska Government Information. If you are a current subscriber, you may use your existing user name and password to access images and data. If you are not current a [Nebrask@Online](#) subscriber, you may contact them at 1-800-747-8177 or (402)471-7810 for subscription information, or simply access the NOL site at <http://www.state.ne.us>.
